PROJECTS

Meal Finder App (04/2022 - 04/2022) [🔗](#)

- Created Meal Finder App.
- Role: Developer.
- Techstack used: React.js, HTML & CSS.
- Description : There is a Meal Finder App that displays some recipes on one page and provides a search bar where you can enter any recipe and see its ingredients and instructions.

Weather App (04/2022 - 04/2022) [🔗](#)

- Created a weather app.
- Techstack used: React.js, CSS, HTML.
- Description : With the help of API calls, users may access live weather for a chosen location. The app also features a background that changes as the weather changes.

Tip Calculator (03/2022 - 03/2022) [🔗](#)

- Created a Tip Calculator.
- Techstack used: HTML, CSS, JS.
- Description : Tip calculator is a great tool for the accountants of hotels. This little tool helps to maintain money records. We have used three programming languages in order to build this tip calculator i.e HTML, CSS and JavaScript.

CERTIFICATES

Python Development (01/2021 - 12/2021) [🔗](#)

Designing and Development of Website
(01/2021 - 01/2021) [🔗](#)
